Goal-oriented, lifelong learner looking to leverage my past experience in a new role as a software developer. Seasoned negotiator with demonstrated ability to solve problems in high stakes situations where opinions differ. Team player who can achieve results under pressure. Looking to use my organizational talents and problem solving skills to further the teams goals.

Technical Skills

Object-Oriented Programming: Java

Web Application Development: HTML, CSS, JavaScript, Vue.js, Servlets, JSP, Spring Web, Bootstrap

Database Programming: JDBC, Table Design, SQL, PostgreSQL, E/R diagrams

Development tools: Agile, Unit Testing (JUnit), Integration Testing, TDD, Git, Eclipse

Education

Tech Elevator – Detroit, MI

January 2020 - Present

Currently attending a 14-week coding bootcamp learning how to develop dynamic web-based software systems using the Java programming language.

Schoolcraft College – Livonia, MI

September 2010 – March 2011

General studies coursework

Technical Experience

Vending Machine Software: Developed virtual vending machine software using file.io to track user transactions and print a sales log file. Achieved 90% testing coverage using Junit.

National Park Reservation System: Created a system using PostgreSQL and Java that allows users to search national park campsites for reservations.

National Park Website: Used Spring Web, JDBC, PostgreSQL, JavaBeans and Integration testing to produce dynamic web pages displaying park details and weather data.

Mortgage Calculator: Used Java to develop a program that calculates several mortgage metrics from user input and optionally displays the amortization schedule by month.
